MESSA 5-Tier Rx Drug List

The MESSA 5-Tier Drug List is a useful reference and educational tool for prescribers, pharmacists and members.

We regularly update this list with medications approved by the U.S. Food and Drug Administration and reviewed by our Pharmacy and Therapeutics Committee. The list represents the clinical judgment of Michigan doctors, pharmacists and other experts in the diagnosis and treatment of disease and the promotion of health. The committee selects medications based on safety, clinical effectiveness, and opportunity for savings. This drug list is updated monthly.

About this drug list

Use this list to find information about your drug coverage and medication options. It's divided by chapter into major drug classes or indications for use. Products approved for more than one use may be included in more than one chapter.

Within each chapter, drugs are identified according to their tier placement. Refer to the "[Reading your drug list](#)" section for details.

We encourage doctors to prescribe preferred medications whenever possible. MESSA respects the judgment of dispensing pharmacists and expects them to contact the prescribing health care professional when a drug or dose may not be appropriate for a member. We also encourage pharmacists to contact the prescriber to suggest an alternative when a prescription is written for a non-preferred or excluded drug.

Coverage and applicable out-of-pocket costs for drugs on this list are based on your drug plan. Not all drugs included in the list are covered by each member's plan. Drugs that aren't listed may not be covered.

Some medications excluded by your pharmacy benefits may be covered under your medical benefits. These are medications that are generally administered in a doctor's office under the supervision of appropriate health care personnel and aren't normally dispensed for self-administration.

Nonformulary drugs (Drugs that aren't covered)

Our goals are to provide you with safe, high-quality prescription drug therapies and keep your medical costs low.

To accomplish this, we don't cover some high-cost drugs that have comparable therapeutic alternatives with similar effectiveness, quality, and safety, but at a fraction of the cost. For the most recent list of drugs that aren't covered with suggested alternatives, refer to [MESSA 5-Tier Rx plans non-preferred and not covered drugs, with alternatives](#). If you have a question about a drug that isn't covered and doesn't appear on this list, call the Member Service Center number on the back of your MESSA member ID card.

Several drugs and drug categories are excluded from coverage unless considered preventive. For a complete list of preventive drugs and coverage criteria, refer to the [MESSA ABC](#) or [MESSA Choices](#) free preventive list.

Drug categories excluded are:

- Brand-name drugs when there's a generic equivalent available
- Prescription drugs for which there is an over-the-counter equivalent in both strength and dosage form
- Over-the-counter medications (unless considered preventive by the U.S. Preventive Services Task Force)
- Lifestyle drugs (such as drugs to treat erectile dysfunction or weight loss)
- Drugs used to treat heartburn and acid reflux (except select generic versions)
- Drugs that treat coughs and colds, including most antihistamines
- Drugs used for experimental purposes
- Drugs prescribed for cosmetic purposes

continued

- Products covered as a medical benefit (for example, injectable drugs and vaccines that are usually administered in a doctor's office)
 - Note: Most MESSA members can get multiple common vaccines at network retail pharmacies. Restrictions may apply.
- Compounded products, with some exceptions
- Replacement prescriptions resulting from loss, theft or mishandling
- Drugs not approved by the FDA

Preferred alternatives for non-preferred and nonformulary (not covered) drugs

Refer to [**MESSA 5-Tier Rx plan non-preferred and not covered drugs, with alternatives**](#) for a list of suggested covered preferred alternatives for non-preferred and nonformulary drugs that can be dispensed with lower out-of-pocket costs. Alternatives may represent a different drug class, contain different ingredients or may be available in strengths or dosage forms that differ from the prescribed branded products. When pharmacies fill prescriptions for preferred alternatives, the generic equivalents are dispensed, if available. Additional coverage requirements may apply for preferred alternatives, such as prior authorization.

Specialty drugs

For more information on specialty drugs, see the [**List of specialty medications available through Walgreens Specialty Pharmacy**](#). Specialty drugs are limited to a 30-day supply. Select specialty drugs are managed by the 15-Day Specialty Drug Limitation Program. Members pay half their usual out-of-pocket cost for a 15-day supply. For more details, visit mess.org/RxPlans.

Preventive drug coverage

Under the Affordable Care Act, also known as national health care reform, most health care plans must cover certain preventive services and prescription drugs with no out-of-pocket costs. These drugs will have a "PV1," PV2" or "PV3" listing in the "Notes" column of the drug list.

For a complete list of preventive drugs and coverage criteria, refer to the [**MESSA ABC**](#) or [**MESSA Choices**](#) free preventive list.

New generics

When a generic version of a brand-name drug becomes available, the generic version is generally added to the generic tier of the drug list. After the generic drug is added, the original, brand-name version won't be covered.

Brand-for-generic substitution

Select brand-name drugs may be covered at a generic copay, and the generic drug will not be covered. These brand name drugs will be shown without the generic drug and will be listed with a generic copay.

Prescription coverage

For details about your prescription drug benefits, please call the Member Service Center phone number on the back of your MESSA member ID card. If you have online access, log in to your MyMESSA member account at mess.org or the MESSA mobile app. You can also find general information about your prescription drug coverage at mess.org/RxPlans.

Vaccines

Select vaccines are covered at pharmacies without out-of-pocket costs for most members whose pharmacies participate with Blue Cross and are certified to administer vaccines.

Reading your drug list

This drug list gives you options so you and your doctor can decide your best course of treatment. In this drug list, brand-name medication names are shown in uppercase (for example, CLOBEX). Generic medication names are shown in lowercase (for example, clobetasol).

Tier information

Using lower tier or preferred medications can help you lower your out-of-pocket cost. Note: If you have a high-deductible health plan, the tier coinsurance levels will apply once you meet your deductible. For tiering information specific to your drug benefit, check your MESSA plan overview.

Select drugs in the generic, preferred brand or non-preferred brand tiers may also be covered with no out-of-pocket costs when health care reform requirements are met. These drugs will have a “PV1,” “PV2” or “PV3” listing in the “Notes” column of the drug list.

| Drug Tiers | 5-tier plan |
|-------------------------------|--|
| Not covered | Nonformulary This tier includes nonformulary high-cost, FDA-approved, prescription-only drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. Nonformulary drugs are not covered. |
| Covered \$0 | No out-of-pocket cost This tier includes select products that are covered with no out-of-pocket costs. |
| Preventive | No out-of-pocket cost This tier includes drugs that are covered with no out-of-pocket costs when health care reform requirements are met. When healthcare reform requirements are not met, the drug is not covered. |
| Generic | Generic – Lowest out-of-pocket cost This tier includes generic drugs. Members pay the lowest copay for generics, making them the most cost-effective option for treatment. |
| Preferred brand | Preferred brand – Higher out-of-pocket cost This tier includes non-specialty, preferred brand-name drugs. These drugs are more expensive than generics, and members pay more for them. |
| Nonpreferred brand | Nonpreferred brand – Highest out-of-pocket cost This tier includes non-specialty, brand-name drugs for which there's either a generic alternative or a more cost-effective, preferred brand-name drug available. Members pay more for these nonpreferred brand-name drugs. |
| Preferred specialty | Preferred specialty – Lower out-of-pocket cost This tier includes generic and brand-name specialty drugs that are used to treat difficult health conditions. These drugs are generally more cost-effective than nonpreferred specialty drugs. |
| Nonpreferred specialty | Nonpreferred specialty – Higher out-of-pocket cost This tier includes nonpreferred brand-name, specialty drugs that are used to treat difficult health conditions. Members pay more for nonpreferred specialty drugs because there is more cost-effective generic or preferred drugs available |

Drug list information

In this drug list, some medications are noted with letters next to them to indicate which ones may have coverage requirements or limits. Your drug plan determines how these medications may be covered.

| | |
|-------------|---|
| AL | Age limit – Age restrictions apply. |
| ABA | Authorized brand alternative – Approved brand medication marketed by either the brand company or another company without the brand name on its label. Authorized brand alternatives are drugs that are considered brand-name drugs and don't have generic equivalents. These drugs are the same as the brand-name drugs but are not true generic drugs. The respective brand out-of-pocket cost will apply for these medications. Some authorized brand alternatives may not be covered. |
| PA | Prior authorization – Your doctor is required to give more information to determine coverage. |
| PV1 | Preventive 1 – Covered with no out-of-pocket cost when health care reform requirements are met. When health care reform requirements are not met, the drug is not covered. |
| PV2 | Preventive 2 – Covered with no out-of-pocket cost when health care reform requirements are met. When health care reform requirements are not met, coverage and applicable out-of-pocket costs apply, based on the members' benefit design. |
| PV3 | Preventive 3 – Covered with no out-of-pocket cost when health care reform requirements are met. When health care reform requirements are not met, coverage and applicable out-of-pocket costs apply, based on the members' benefit design. Additional coverage requirements may apply. |
| QL | Quantity limit – The quantity of medication dispensed at one time is limited. |
| SP | Specialty medication – Specialty medications treat complex health conditions and may require special handling or administration. |
| ST | Step therapy – Requires you try one or more preferred drugs before a higher-cost medication can be covered. |
| 15DS | 15-day supply – Limits the amount of certain specialty drugs to a 15-day supply to help reduce out-of-pocket costs and waste. |

How prior authorization, step therapy and quantity limits work

Prior authorization

Prior authorization may be necessary for coverage of certain medications. In these cases, the member must meet clinical criteria or additional information must be provided before coverage is approved. Clinical criteria are based on current medical information and approved by our Pharmacy and Therapeutics Committee.

Step therapy

Drugs subject to step therapy may require previous treatment with one or more preferred drugs before coverage is approved.

For a current list of drugs requiring prior authorization or step therapy, see the [Prior Authorization and Step Therapy Coverage Criteria](#) and refer to the column labeled by *MESSA 5-Tier Rx*.

Quantity limits

For certain medications, Blue Cross limits the quantity that can be dispensed per fill. Blue Cross sets quantity limits based on clinical appropriateness and manufacturer-recommended dosing for select drugs.

For a current list of drugs that have limits on the quantity that can be dispensed per fill, please see the [Medication Quantity Limits](#) list, and refer to the column labeled MESSA 5-Tier Rx.

How to request authorization

Consult your prescription drug benefit packet for information on how to get prior authorization or request reviews for coverage of drugs that aren't included in your plan. You can also call the Member Service Center number on the back of your MESSA member ID card for more information.

Doctors can request authorization for you. We notify the doctor of approved requests and process the claim accordingly. If a request isn't approved, we'll notify you and the doctor in writing. The notification includes the reason for the denial, an explanation of your appeal rights and the appeals process.

Doctors can request authorization one of four ways:

- **Electronic prior authorization:** Doctors can use their electronic health record or CoverMyMeds® to submit electronic prior authorization requests for commercial pharmacy members.
- **Call:** 1-800-437-3803
- **Fax:** 1-866-601-4425
- **Write:**
