# Interested in Engineering?

## THE PROCESS TECHNICIAN POSITION

The Process Technician Position is an opportunity to learn, grow, and develop engineering skills. You will perform mold tool, material, and set-up changes for machinery. You will also develop troubleshooting skills while owning a variety of manufacturing responsibilities. A typical day at Innotec can be incredibly varied, with purposeful time spent on improvement projects.

**1st and 2nd shifts available.**

---

## ABOUT US

Innotec is dedicated to designing products and processes that focus on efficiency, performance, and sustainability. Our passion for excellence is driven by our desire to achieve a greater purpose. We believe this is accomplished with a foundation of integrity, humility, and trust.
