

COVID-19 CLOSE CONTACT RESPONSE

Outlined below are the recommended responses by the CDC and Ottawa County Health Department for students, faculty, and staff who come into contact with a positive COVID-19 case.

- Close contact is defined as being within 6 feet for 15 minutes or more within a 24-hour timeframe. Individual athletic teams may have different definitions of close contact as defined by the Ottawa County Health Department and the MHSAA.
- Quarantine of close contacts will only occur if there is an outbreak defined by the Ottawa County Health Department or household case.
- An outbreak is defined as "two or more laboratory-confirmed COVID-19 cases among students or staff with onset within a 14-day period, who are epidemiologically linked, do not share a household, and were not identified as close contacts of each other in another setting during standard case investigation or contact tracing.
